EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with *Peter Matos* on *06 June 2005*.

The application has been amended as follows:

In The Claims:

In claim 3, lines 1 and 2, "further comprising" has been deleted and --wherein the at least one cover member is-- has been inserted before "a plurality".

NOTE: The above changes have been made to overcome informalities, in order to put this application in condition for allowance.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: Claims 1-14 are allowable over the prior art of record, because the prior art does not show or suggest the combination of a table assembly comprising a tabletop, at least one cover member extending outwardly from a periphery of the tabletop and an under-portion disposed beneath the tabletop, a support assembly, a conversion assembly movable relative to the tabletop and selectively disposable between an operative, a stored and a supporting position, said operative position at least partially defined by said conversion assembly disposed in substantially overlying relation to the periphery of said tabletop, said stored position at least partially defined by said conversion

Art Unit: 3711

assembly disposed beneath said tabletop and at least partially within said under portion, and said supporting position at least partially defined by said conversion assembly disposed in supporting relation to said cover member.

3. Claims 15-18 are allowable over the prior art of record, because the prior art does not show or suggest the combination of a table assembly for conversion between a conventional table and a billiard table, said assembly comprising a tabletop, a plurality of cover members extending outwardly from a periphery of the tabletop and an under-portion disposed beneath the tabletop, a support assembly, a conversion including a plurality of side rails, each positionable between an operative, a stored and a supporting position, said operative position of said side rails comprising each of said side rails disposed above the outer surface and in substantially overlying relation to a corresponding periphery of said tabletop, said stored position of each of said side rails comprising each of said side rails disposed beneath said tabletop and at least partially within said under portion, said supporting position of each said side rails comprising each of said side rails disposed in supporting relation to corresponding ones of said plurality of cover members, and said plurality of rails being collectively disposed and dimensioned to substantially surround said outer surface when in said operative position and thereby facilitate the playing of billiards thereon.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
